

**For Immediate Release: January 2008**

**The Pasadena; In line with today's home entertainment trends.**

Flat screen televisions were the most desired item on holiday gift lists this year. For those of us fortunate enough to find a narrow rectangular box under the tree, the inevitable next question is, "where should we put it?". Twin-Star International's brand, ClassicFlame, has an answer, put it on the Pasadena!

The versatile Pasadena Home Theater system is a gadget guys dream. It features adjustable media shelves, audio video component storage, and wire management channels in the back. It also comes with brushed nickel pulls and 3 mix and match door inserts; beveled smoked glass, speaker covers and wood panels. The Pasadena is also amply sized to accommodate up to a 66" LCD or Plasma TV

According to Furniture Today "consoles that can accommodate a wide range of electronic components and speakers" are most desirable as "function is driving occasional growth." It seems that the consumer's interest in large wall units and entertainment centers is going the way of the VCR. ClassicFlame's answer to that is a Home Theatre unit that not only fulfills the needs of today's customers; it does so with style, function, and the added beauty of a ClassicFlame Electric Fireplace.

"An Electric Fireplace adds warmth and dimension to an otherwise ordinary room" says Andy Bandremer, Vice President of Twin-Star International. "We're not reinventing the wheel; we're just recognizing trends and creating new designs to compliment them."

ClassicFlame has received numerous awards for their finely crafted furniture including a 2007 Platinum ADEX, Award for Design Excellence, for the Biltmore Electric Fireplace with mirror top, and a 2007 Gold ADEX for the builder's box. ClassicFlame is an electric fireplace brand within the Twin-Star International portfolio. Twin-Star, founded in 1996, is located in Delray Beach, FL.

In April of 2007 Twin-Star International announced that it had secured a sizable equity investment from Trivest Partners, L.P. In this transaction, Trivest acquired the majority stake from Twin-Star's founders Mark Asofsky and Michael D. Horvitz who retained a significant ownership interest in the Company and continue to lead Twin-Star's daily operations.
