### Clean-face Power-vent Termination

Never before has venting-termination placement been more versatile. Town & Country's clean-face power-vent termination is the first to offer zero-clearance installation next to soffits and under verandas, porches, decks, or balconies. Fitting within a 14 3/8-inch-square wall opening and sitting flush with the outside wall, the power-vent termination can be painted any color to match the exterior—making the termination blend completely into the outside wall and virtually disappear. ### New Garden Pavilion

This introduction is in perfect timing with the megatrend favoring outdoor rooms. Treasure Garden's 12x12-foot square pavilion features all-aluminum construction, an awning-grade fabric top, decorative corner draperies with tiebacks, and three choices of fabric sidewalls, as well as several innovative and exclusive features. It's smart, solid, and sophisticated. Shown is the GP12120 in the bronze finish.

### Moistly Grilled

It's really quite amazing that such a basic concept, adding humidity to the grill, can make such a big difference. Moistly Grilled® is a two-piece, cast-iron vessel with a vented lid that goes into the grill and holds water—or any other flavored liquid—to add humidity to the grilling environment while food cooks. The result is succulence defined: quite simply the juiciest, most flavorful grilled meat you've ever experienced. Contact: (800) 521-0505 or [sales@companion-group.com](mailto:sales@companion-group.com).

### Baxter

One of Classic Flame's newest designs for the fall is the Baxter, an electric fireplace, wine cooler, and media console, all wrapped into one. The unit features two locking doors and an empire cherry finish. Storage on the left includes a stemware rack and an adjustable shelf, and the right side's storage area holds 18 bottles of wine. The wine cooler features a dual-zone thermoelectric cooler. Contact: (866) 661-1218 or [www.classicflame.com](http://www.classicflame.com).

### Quadra-Fire's Voyageur

The Voyageur is a flush-hearth cast wood-burning insert, so neither additional space nor a hearth extension is needed. Featuring elegant lines, the insert allows the fire to be enjoyed through the large and unobstructed viewing area. With the famous quad burn, the Voyageur provides powerful performance, efficiently, throughout the home. Homeowners will enjoy load, light, and live convenience with Quadra-Fire's exclusive advanced combustion control technology. The new Voyageur will bring warmth and beauty to any room.
